Priority[®]

A Better Way To Work

Working Smart Hybrid: Synopsis

Organizations and workers were thrust into a transformational change that left both work and home environments in a state of chaos. The need to understand the impact of the shift from the traditional workplace to a hybrid world provides you with the opportunity to realign and navigate how we work.

Traditional work/life balance strategies will need to shift to a more integrated lifestyle to support the hybrid working model.

Participants will be able to turn intentions into actions and gain an understand of;

Module 1: Fundamentals of Working in a Hybrid World

Module 2: Self-Management in a Hybrid World

Module 3: Working Well with Others in a Hybrid World

Module 4: Managing Human Assets, Tasks and Activities

Facilitated by Karen Hardman

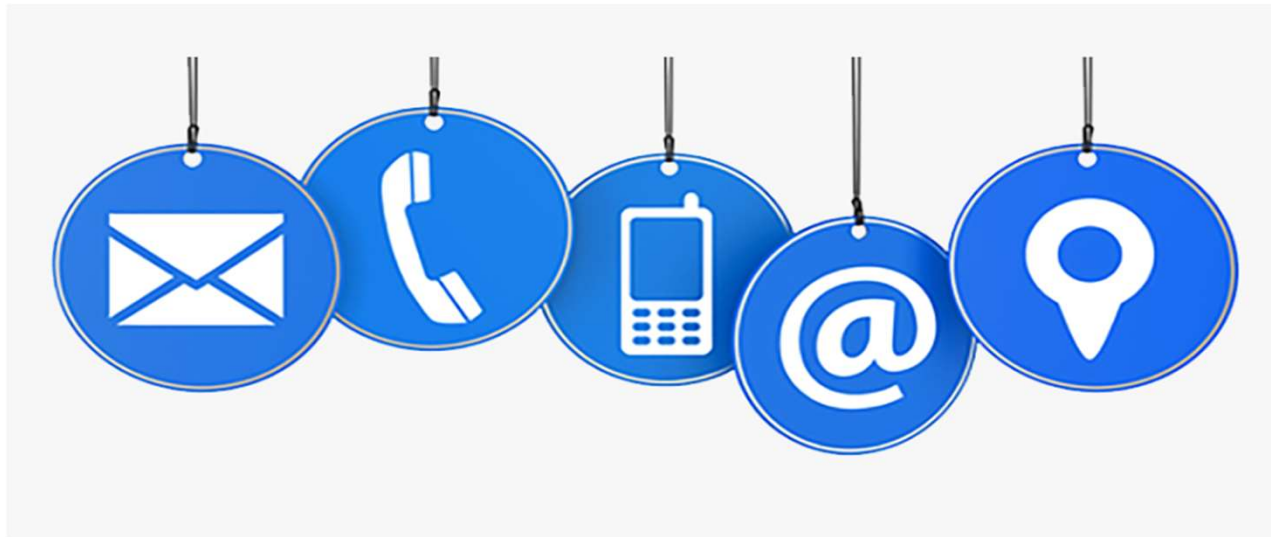

Karen began her career in secretarial and support positions in the Pharmaceutical and Timber Export industries.

In 1997 Karen began her first role in a Learning and Development. Her first position was Course Co-ordination for Hyundai Motor Corporation before moving into a facilitation role. Following Hyundai Motor Corporation Karen has held various positions within in Human Resources Consulting firms where she gained her experience in Transformation, Diversity Management, Psychometric Assessments, Executive Pay, Labour Relations Education and much more.
